CFA INSTITUTE INVESTMENT SERIES

The economics background investors need to interpret and use global economic news, distilled to its essentials

Written in light of challenging questions and practitioners' requests for their advanced knowledge on topics in their fields, and guided by CFA Institute, the world's largest association of financial professionals, Economics for Investment Decision Makers fills you in on all the economic terms, concepts, principles and practices investment professionals need to know to make the most informed investment decisions.

From supply and demand to monetary and fiscal policy, business cycles to currency exchange rates, Economics for Investment Decision Makers brings the "familiar unknown" down to earth with clear, jargon-free explanations and an abundance of illustrative examples.

The only concise introduction geared specifically to the concerns of investment professionals, this unique, plain-English guide measures up on background economics and delivers:

- All the economics you need to know to truly understand the global economic news and its implications to your practice
- Key economic concepts, terms, principles and practices clearly defined and concisely explained in plain English
- In-depth coverage of both the micro- and macroeconomic realities that drive the global economy and shape the markets
- All the essential elements to security analysis, namely: analysis, country analysis, portfolio management, and capital market strategy
- A treasure of fascinating and critical real-world examples from around the globe and across industry sectors

Economics for Investment Decision Makers is an indispensable source of insight and guidance for money managers, financial advisors, financial analysts, traders, and all finance professionals who understand that knowledge is the one surest investment.
